Jallandar City

10th April 32.

My dear Mirza sahib,

Thanks for both of your letters. I am sorry I could not go to Simla today on account of some urgent business. I hope however to reach there very soon .y son is there and he is doing the needful and will help your men if they have reached by this.

My reason to wire to Kashmere was that the manager at Jammu castle informed my man that in the first instance he had recieved orders to give Jammu castle to another person for a week early May and later to Mysore. I wanted inform H. .that you want it from end of April Secondly the building was in a very bad condition and the men in charge was writing and wiring to Jammu for funds to re-pair, but never recieved any reply. So I wired to Kashmir informing that the house was in a bad condition and that the needful may be done. I have just heard from my son that inspite of this reply to you and the same sort to me niether any man had arrived there till the 7th nor any reply to the man in charge of his repeated requests. Such is the state of affairs there. I have asked my son that in case they do not do anything he may just do the

needful. It would be impossible to do all the repairs now, but may be made inhabitable.

I will reach Simla now at the latest by the 17th instant. Let me know the exact time of your arrival at Kalka and I will meet [illegible] there.

With warmest regards

I am

Ever Yours

Dajit Singh
